July 1974

P R E F A C E

This summary reports shipments of fresh fruits and vegetables by States of origin. States for which shipments are reported in limited volume are reported in a single table outlining rail shipments by commodities, waybilling stations and months and truck shipments by commodities and months. Two tables are shown for those States which originate substantial rail shipments of the reported products. Table A summarizes rail and truck shipments by commodities and months for each State. Table B reports rail shipments by commodities, counties, waybilling stations and months. A third table - Table C - for Arizona, California, Florida, Texas and Washington shows segregation of rail-truck (*piggyback*) shipments by commodities, counties, waybilling stations and months. *These rail-truck shipments are included in the totals by commodities and months, and counties and stations as reported in Tables A and B and should not be interpreted to be in addition to total rail shipments shown in those tables.* Rail-truck from other States is identified by R/T adjacent to station name. Rail-truck is reported by actual van or trailer count. Each van is counted the same as a standard refrigerator car.

Truck shipments for all commodities and origins are not available. Those obtainable are reported, *but should not be interpreted to represent complete truck movements.* Arizona and Florida truck represent *interstate* movement only. Truck reported for all other States is collected at shipping points and includes both *inter* and *intrastate* movements.

A list of commodities reported in this summary and an index of the State tables are shown on page 4. A table outlining representative factors used to convert truck, boat and air to rail carlot equivalents is shown on page 5.

The detail tables by commodities and waybilling stations identify boat shipments as such. Air shipments of California, Oregon and Washington products are identified in these tables.

Cooperation of transportation agencies in reporting rail and air movements and State officials assisting in reporting all truck data is hereby gratefully acknowledged.
